Tumble Book Library

This is the end of the school year but your child still needs AR points. Did you know that the library has digital books that you and your child can access at any time? Why not look into TumbleBooks?

TumbleBooks are **animated, talking picture books** which teach kids the joy of reading in a format they'll love. TumbleBooks are created by taking existing picture books, adding animation, sound, music and narration to produce an electronic picture book which you can read, or have read to you.

Story Books are our animated, talking picture books. Users have the option to automatically or manually turn the pages. iPad users please note that the iPad-compatible Story Books on the Mobile site have been converted to an mp4 video format and thus the auto-manual feature is not available.

Chapter Books/Read-Alongs are our early chapter books for older elementary readers. While there are no animations, the ebooks are narrated.

Our Chapter Books also allow readers to change the colors of the background and text, as well as the font style, size, and line spacing.

The **Graphic Novels** collection is hugely popular with our readers! There are titles for all ages and reading levels, with multiple genres and topics. They also feature gorgeous artwork and well-known characters like Lego Ninjago, The Smurfs, and Geronimo Stilton!

Puzzles & Games accompany each book and reinforce con-

cepts from the books, allowing for a fun and educational learning experience.

Language Learning is an easy way to access our French and Spanish titles!

Ask us at the front desk how you can start using Tumble Books and download the free app on your electronic device.
