## Read It B 4 U C It: The Darkest Minds

Have you ever woken up and just felt like you were different? Imagine waking up and finding out that you now have special abilities.

This is what happened to Ruby when she was ten years old. After surviving a strange illness that killed most of the children, she woke up with powers

she couldn't control and that scared her parents. Now at age 16, Ruby needs to get out of the "rehabilitation camp" she had been sent to over 6 years ago.

This is where the book "The Darkest Minds" starts. Once on the run, Ruby meets up with a group of kids just like her who need to get away from the government who wants to hide them. She and this group just want to find a place where they can live a somewhat normal life. This book will be coming to the big screen with Amanda Stenberg from the movies Hunger Games and Everything, Everything starring as Ruby.

Before you run to the theater to watch the

movie on the big screen, why not check out the book and discover what it is like in Ruby's world? Then after watching the movie, come back and check out the other books in the series and see how Ruby and her friends continue to hide from the people who want to control them.

The Darkest Minds will come to theaters on August 3rd.

Do you have a paper that you need to write for your college class? Does it have to have references from vocation or trade specific journals? The library has several databases that not only can find the article you are looking for but can help you correctly cite

the article for your paper. Here's just a couple for you to look through for the summer sessions.

Looking for an abstract or full article from a journal such as Modern Machine Shop, Pediatric Nursing, Wireless Week, or American Machinist? Why not try the **Vocational & Career Collection** database? With this database, you can put keywords in and find multiple abstracts on your topic. All of the articles and abstracts can be viewed in multiple ways depending on how you need to see the information.

Maybe you need to complete a paper in your Texas history class. We have a database for that! The **Texas Reference Center** includes more than 80 full text journals and books about Texas history, ethnic & cultural diversity, literature, public health, business as well as home & garden and sports & leisure. The database also contains biographies of famous historical and contemporary Texans and the Spanish-language newspaper El Sol de Texas with Texas and national news coverage.

In addition to both of these, the library has a collection of databases that allow you to search for poems, critical essays, indexes, and so much more. Why not just take a moment before you try to find the information on Wikipedia and search through the library's databases to see if you can find the articles you need?
